

APPLICATION GUIDELINES

The NASA NM Established Program to Stimulate Competitive Research (EPSCoR) offers funding for full-time faculty.

NASA EPSCoR Research Infrastructure Development (RID) grant

- a one-time competitive award to a full-time New Mexico faculty
- funds are provided by NASA. Awards are contingent on funding from NASA, and are awarded depending on availability of funds.
- used for research aligning with work at NASA Field Centers and Mission Directorates
- US citizenship is not required for faculty or students directly funded by this award

Once a NASA EPSCoR Research Infrastructure Development (RID) or NMSGC Research Initiation Grant (RIG) grant has ended, the PI **may not** apply again for either RID or RIG. PI with a RID or RIG grant, **may not** apply nor simultaneously hold, a Public Service & Informal Education Grant or an Education Enhancement Grant. A PI, who holds a RID or RIG award may be listed as a Co-PI on a Public Service grant, or Education Enhancement Grant.

Once RID or RIG award has ended, PI **may** apply for an Education Enhancement Grant or Public Service & Informal Education Grant. PI **may not** apply simultaneously for either award.
